

JAMBON

MARINE SERVICES of GHANA

www.JAMBONBOATS.com

JAMBON was established as a solution to the Oil and Gas Industry's need for quality high-tech Positioning, Acoustic, Navigation, and Geophysical Survey services. One of our goals is to be recognized as a customer focused company that leads the industry in acoustics and geomatics.

- * Acoustic Positioning 'USBL'
- * ROV and Diver Tracking
- * Lift and Dive Boat Positioning
- * MS1000 Bottom Scanning Sonar and Mosaic
- * Surveys for P&A and Decommissioning
- * Archeological and Shallow Hazard Surveys
- * Multibeam Bathymetric Surveys

At **JAMBON** it is our mission to operate a company that is safety conscious and values its greatest asset, its Personnel. As you know the hazardous environment of the offshore Oil and Gas industry is very critical.
